- 1) The floor must be installed properly in accordance with Pergo installation instructions. The instructions should be obtained through a retailer or at 1-800-33-PERGO (1-800-337-3746) or www.pergo.com. Proper installation includes, but is not limited to, the following:
 - A moisture test must be performed to determine if excessive moisture exists in the subfloor.
 - When using a calcium chloride moisture test for concrete subfloors (ASTM F1869), values must be ≤ 5 lbs/1000ft²/24hr or $<80\%$ RH with an in situ probe (ASTM F2170).
 - A polyethylene film vapor barrier is not required over wood subfloors. Moisture readings of wood subfloors must be $\leq 12\%$ throughout the entire installation.
 - For planks without attached underlayment, install over a single layer of underlayment appropriate for laminate floors.

PERGO® TimberCraft™ + WetProtect™ Limited Warranty for Floor Installations Only

- For planks with attached underlayment, it is acceptable to install Pergo Gold underlayment (Lowe's Part # 670312) prior to flooring installation if desired. Make sure to follow the Pergo Gold installation instructions, taking special care to seal all foam edges with sealing tape and repair all rips and perforations in the underlayment vapor barrier prior to flooring installation. A separate vapor barrier should not be used in conjunction with Pergo Gold.
 - The entire perimeter of the installation must be sealed with 100% silicone sealant. All expansion spaces must be filled with 3/8" compressible PE foam backer rod and covered with 100% silicone sealant. Apply 100% silicone sealant to all moldings at the point of contact with the flooring surface. Apply silicone sealant at all connections to doorframes or any other fixed objects.
 - When installing Pergo in special situation areas such as: terrazzo, pier and beam, radiant heating and to also learn how to properly acclimate your floor, please contact our consumer help line at 1-800-33-PERGO (1-800-337-3746) or log on to www.pergo.com to obtain important additional information.
 - Failure to fully engage the locking system around all sides of each plank during installation could result in gaps that will void this limited warranty.
- 2) The flooring must be used only indoors in a dry, climate-controlled area.
 - 3) The flooring must be maintained in accordance with Pergo care and maintenance instructions. Damage resulting from excessively wet maintenance or from using detergents, abrasive cleaners, soaps, waxes or polishes is not covered by this limited warranty.

Damage resulting from the use of rotating beater bars, floor scrubbers, steamers, jet mops, buffers or similar products is not covered by this limited warranty.
 - 5) Surface wear must be readily visible (i.e. approximately 1 square inch). Gloss or sheen change and variations from later product additions or non-warranty repairs are not covered by this limited warranty.
 - 6) These limited warranties do not apply to moisture damage caused by events beyond everyday household spills, including but not limited to, flooding, standing water, leaking pipes, mechanical failures or appliance leaks.
 - 7) These limited warranties do not apply to damage caused by water or moisture in the subfloor or underneath the flooring, including but not limited to damage from subfloor hydrostatic pressure (water or moisture under the floor that is transmitted to the surface through exerted pressure) or other conditions that result in water or moisture being below the floor.
 - 8) These limited warranties do not apply to flooring installed on a concrete subfloor unless a nonrecycled (100% virgin resin) 6-mil polyethylene film vapor barrier with a density of 0.92 lbs/cubic foot and a thickness tolerance of +/- 10% is installed over the concrete subfloor that emits a water vapor no greater than 5 lbs/1000ft²/24-hr. Pergo Gold is an acceptable vapor barrier when installed in accordance with the provided instructions.
 - 9) These limited warranties do not apply to moldings.
